

Company Profile

RRC's Refrigerated Retail Cabinets are designed to suit modern and sophisticated stores both locally and abroad, with a global footprint spanning over 35 countries. Robustness, operational efficiency and value for money were the key factors in establishing the RRC brand, with a strong emphasis being placed on green technology.

Use of ISO 23953 test chambers ensure that all cabinets perform to maximum efficiency and customer satisfaction. Our quality management system is TUV certified to ISO 9001-2015 with an emphasis on providing complete customer satisfaction and continuous product improvement.

RRC is uniquely positioned to leverage a full capital equipment offering for any size or model of retail, butchery or convenience store application. Quality cabinets sporting international finishes, coupled with a complete refrigeration solution which is tailor made to each unique store requirement.

Quality and Service are the only option.

UNIQUE FEATURES AND BENEFITS

RRC cabinets boast unique features on our well-engineered cases, manufactured to suit all environments whilst having state-of-the-art finishes.

UPRIGHTS

Our uprights come standard with electrical switch gear, night blinds, top entry pipes with LED Lamps and shelf stiffeners that are self-supporting

THE NITTY GRITTY

To make your life easier our cabinets have adjustable levelling legs, LED lamps in both the hood and under shelving and our kick plates are installed with thumb screws. All our fans come standard with fan guards, we use drop in perspex product retainers and no tools are needed for disassembly to ensure ease of cleaning.

JUMBO

Our jumbos have the option of nightblinds, dual tier centre shelving with lights

WHERE IT DRAINS

Our cabinets are equipped with 40mm drain points with all drain fittings supplied

GLASS DOOR FREEZERS

Our glass door freezers are equipped with triple pane glass doors of Anthony quality available on both standard and lofty cabinets

SERVE OVER

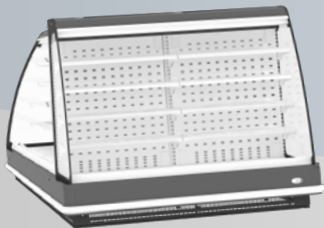

Our serve overs whether square or curved glass include concealed electrical switch gear, scale power points and mist clearing air curtains. The glass gas lifters and removable rear framed sliding windows allow for ease of cleaning and quick service.

MEDIUM-TEMP

Medium Hi-Backs • Uprights • Serve-Overs

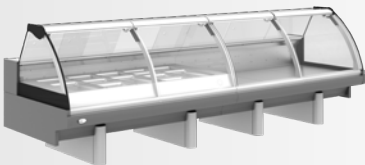

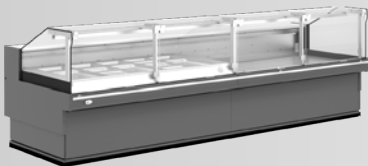

These cabinets cover all the fresh produce, dairy , meat and loose selling products.
Our extensive selection is bound to meet your retail merchandising requirements.

HOT FOODS

Serve – Over • Grab and Go

These cases are used to merchandise hot foods with the option for a dry or humidified heat source to best cater for the diverse requirements within the product ranges, from dry crispy to cooked foods.

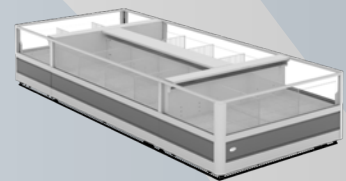

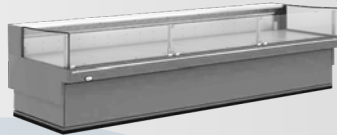

LOW-TEMP

Glass Doors • Serve-Overs • Bin Freezers

All freezer display cases are designed to optimize product display in the retail industry.

Browse our Low-Temp range to find the ideal cabinet to suite your requirements.

SELF CONTAINED

Island Freezers

We offer low-temp self contained island freezers utilizing a maintenance free condensing unit with the latest refrigerant options.
